Personal Statement

I'm a graduate from Otago Polytechnic with a Bachelor of Information Technology. Throughout my 3-year degree, I have experienced many IT-related technologies and workflows, expanding across a variety of different fields. This has helped me improved many different skills well suited for the IT industry. I have a keen interest in programming, networking and software development. I have Australian citizenship and speak both English and Thai fluently.

Education

Otago Polytechnic Bachelor of Information Technology (Current GPA: 7.76)

Courses: Programming, Web Development, Mobile Development, Software Engineering, Networking, Database, Linux, System Administration, Security

Technologies Used: C#, C++, Java, .NET Framework, HTML, CSS, JavaScript, PHP, React, Node.js, Webpack React Native, Android Studio, Cisco OS, Packet Tracer, GNS3, Bash Shell, SQL, TSQL, Git, Puppet, Nagios

Projects

FitsGo Mobile Application (Supervisor Grayson Orr)

- Developed using React Native with Firebase database for both IOS and Android
- The app shows the user different points around Dunedin that they can run to and add to their record
- Developed in a small team of 2 over 6 months using agile workflow and Kanban board
- Documentation of the development cycle was kept in a portfolio linked here: <https://carthur-p.github.io/FitsGo/>
- Project code can be found in the GitHub repository here: <https://github.com/Carthur-P/FitsGo>

Internship

System administrator internship for Otago Polytechnic BIT Department (Supervisor Rob Broadley)

- Supporting existing/configuring new departments servers (Window and Linux)
- Building an SSO authentication system/website for OP students
- Hardware deployment/maintenance
- Migrating databases
- Learning about different AWS services and concepts

Skills

- IT-related problem solving/critical thinking
- Ability and willingness to learn unfamiliar IT technologies, programming languages and IT concepts
- Self-driven with a focus on personal development
- Excellent time management skills
- Technologies and different languages that I have encountered and used

Proficient: C#, HTML, CSS, JavaScript, React, SQL, React Native, Git, Bash Shell, Cisco OS

Familiar: C++, Android Studio, Java, PHP, Node.js, Webpack, GNS3, IIS, AWS, Nagios, Puppet
