Personal Statement

I am an IT professional with a keen interest in web and mobile software engineering. I am growth-minded, self-driven, and always looking for challenges to grow my IT career. I hold a Bachelor of Information Technology from Otago Polytechnic, where my areas of study were software engineering, networking, and system administration. I currently hold a position as a technical support specialist at Education Perfect, looking to grow my skills in front-end software development.

Education

Otago Polytechnic Bachelor of Information Technology (GPA: 7.76)
Courses: Programming, Web Development, Mobile Development, Software Engineering, Networking, Database, Linux, System Administration, Security
Technologies Used: C#, C++, Java, HTML, CSS, JavaScript, PHP, React, Node.js, React Native, Cisco OS, Packet Tracer, GNS3, Bash Shell, SQL, TSQL, Git, Puppet, Nagios

Projects

Sales Report Web Application (Client Rajit Pongpatimet formerly for SDM Co., Ltd now use at JitJai Co., Ltd)
- Developed using React and Firebase
- Developed to meet the client's specific needs and requirements
- Allows the user to create data entries that are related to creating a sales report
- Currently being used by a company in Thailand called JitJai.co,ltd
- Project code: https://github.com/Carthur-P/SDM-Sales-Report

FitsGo Mobile Application (Supervisor Grayson Orr)
- Developed using React Native and Firebase for both IOS and Android
- The app shows the user different points around Dunedin that they can run to and add to their record
- Developed in a small team of 2 over 6 months using agile workflow and Kanban board
- Project code: https://github.com/Carthur-P/FitsGo

Tonight's Dinner Web Application
- Developed using React and Edamam recipe search API
- Allows the user to search different recipe ideas using ingredients or food keyword
- Link to the app: https://carthur-p.github.io/Tonight-Recipe/

Tetris Web Application
- Developed using JavaScript, HTML and CSS
- A version of the classic arcade game Tetris
- Link to the app: https://carthur-p.github.io/Tetris/index.html

Please check out my online portfolio for a complete list of all my projects. The link to the portfolio is above.

Internship

System administrator internship for Otago Polytechnic BIT Department (Supervisor Rob Broadley)
- Supporting existing/configuring new departments servers (Window and Linux)
- Building an SSO authentication system/website for OP students
- Hardware deployment/maintenance
- Migrating databases
- Learning about different AWS services and concepts

Skills

- IT-related problem solving/critical thinking
- Ability and willingness to learn unfamiliar IT technologies, programming languages and IT concepts
- Self-driven with a focus on personal development
- Excellent time management skills
- Technologies and different languages that I have encountered and used
Proficient: HTML, CSS, JavaScript, React, React Native, Firebase, SQL, Git
Familiar: C++, C#, Java, Node.js, AWS
